**WHERE TO FIND US:**

Laguna Beach Farmers Market---Saturday 8am-Noon (Corner of Laguna Canyon Rd & Forest Ave)

**MY STORY**

Nine years ago, Bear, my Bernese Mountain/Australian Shepherd, began showing signs of arthritis and hip dysplasia whenever getting up after resting. One day, I opened the back door of my SUV and said, "up"... Sadly Bear just sat there with his head bowed as if the say, "I can't mom, its too high and it hurts." Lifting his 60-pound body in and out of the car, I rushed Bear to my vet. "Jeannie, Bear has arthritis and his hips are going...No more running, jumping, chasing balls, or going up and down stairs any longer." I hated hearing these words. Bear loved chasing after the squirrels, rabbits... and his ball. Bear began Steroids paying close attention for side-affects, particularly since Bear was always a sensitive dog with allergies. Bear vomited, so we tried another brand. Finally I said, "Stop!" That night I asked myself, "If something happened to Bear, what's the one regret I would have?" So, nearly 8 months later, Bear's Youthful Elixir was born to relieve his arthritis pains, fight conditions and illnesses and *not* tax his organs with negative side affects. Bear started running faster, jumping higher than ever and being youthful again. Frequently dog owners would mention their dog or a friend's dog was sick but they couldn't figure out why. Most dogs suffer from allergies, most often food allergies.

Originally this was formulated only for Bear's benefits. But when my family and friends saw the miraculous results, they wanted to try it for their dogs! And, their dogs went nuts over it and became super-dogs too! So began Bear's Youthful Elixir. Now we want to help all dogs all over the world, whether they are suffering from allergies, diabetes, osteoporosis, arthritis, cancer, surgeries or injuries. Let's join together to help all dogs Live Strong & Live Long so we can enjoy our dogs for many years to come!! We are the masters of our dear pets, *what we do or don't do* has the greatest impact on the quality of their lives. They are counting on us to take control & help them!!

**Recommended Dose for Bear's Youthful Elixir**

<b>Dog's Approx Weight</b>	<b>Dosage</b>	<b>*Notes</b>
5-10 Pounds	1 -2 <b>Tablespoons</b> Daily	Gradual Increase each 1-2 days until you reach your recommended dosage. (Refer to Frequently asked #9)

60-90 Pounds	8-10 <b>Tablespoons</b> Daily	Vacuum Sealed Pouches are Easy Storage
91- 135 Pounds	10-14+ <b>Tablespoons</b> Daily	

## **Instructions on How to Feed Your Dog The Elixir?**

**1)** Add a little to your dog's current food. Depending on how particular your dog is, this will determine how much or little you should add to the dog-food. If your dog is super sensitive, start slow to get to your dose within a week. **Remember: Keep the Elixir in your Pet's Blood Stream for Optimum Results (Bear has never been without it.)**

**Example:** If your 5-pound Chihuahua is a very picky eater, you may *initially* mix a little peanut butter, cottage cheese or raw meat together with the Elixir *before* adding Elixir to the food. (The Elixir **does not contain** peanut ingredients)

**2)** If your dog eats just about anything put in front of him, simply add the Elixir by mixing it into his current food. The Elixir is 100% Plant Based.

**3)** Each day or Every 2 days, **increase the amount of Elixir** you add to your dog's food until the Recommended Dose is reached and maintained (listed below). Your dog will love his food more now!

## **Why are There Sweet Potatoes or Other Such Foods When My Dog Relieves Him/Herself?**

If you feed your dog a cut up piece of sweet potato or carrot you may notice when your pet relieves himself, the pieces of carrot or sweet potato are seen in the feces. Not the case with Bear's Elixir. Bear's Youthful Elixir has been tested and the process proves it is efficiently absorbed & digested to maximize our dog's health. **Cooked/Nor Cut up Raw vegetables will not produce the benefits of the Elixir.** The Elixir has a great number of ingredients with a proven scientific process, each dedicated to a specific health benefit,

## **FAQ ELIXIR BENEFITS – Bear will be 19 Years this May 31<sup>st</sup>.**

- 1.**Has Bear Lost Any Teeth--- Bear has not lost a single tooth to date, Elixir has a high calcium level.
- 2.**Does Elixir help Poop Regularity --- Yes, Elixir has many ingredients to keep pets regular.
- 3.**Why is Bear's Fur Soft Like a Bunny Rabbit --- Bear's Youthful Elixir is a skin/fur conditioner.
- 4.**Does Bear Need Flea or Tick Medication --- No, the Elixir is Anti-bacterial/Anti-Fungal and Flea & Tick Repellent (Bear has not used Frontline nor other flea/tick chemicals in over 5 years.)
- 5.**How is Bear's Vision--- Bear has perfect Vision & and does not have 'Tear Stains' near his eyes, since his eyes function perfectly due to the Elixir.
- 6.** Does Bear have hearing loss ---No, even when I whisper to him, he hears everything perfectly, especially at night.
- 7.** Does Bear sleep well? --- Yes, Bear sleeps soundly at night, especially since he runs around all-day with his mom making deliveries and meeting customers, which he loves.
- 8.**Does Bear Like his Elixir? --- Bear loves it so much, whenever I am making a new batch, he lays nearby drooling from both sides of his mouth.
- 9.****How come the Elixir is not working: Only 2 Reasons:**
  - 1.**You are not giving your dog enough Elixir - Increase Elixir by 1- 4 Tablespoons per day
  - 2.**You are missing feedings; Consistency is Paramount in order for your dog to respond  
*\*The Elixir MUST REMAIN in your pet's blood stream. This is very important in keeping the alkaline/Ph levels high and your pet nutritionally healthy. Think ahead when re-ordering.*
- 10.** How long does the Vacuum Sealed Pouch last? --- Up to one year and you can cut off amount to use. Do not freeze the jar as contents will expand — Yes you may place the Elixir in an appropriate container or freezer bag.
